

ABOUT : This is my very first work done by me on AutoCAD software 2015 . as its for some know so the work is still not to the notch . I can do more than this .

Here are two sample for almost same area given

first is as according to the owner need and other is made with the best use of area given . with more detailing and better arrangement of building .

COUSTOMER NEEDS : the owner is an army person, and want two rooms one bathroom and one kitchen with a gallery . the given area is 36'x26' as he also want to leave 1' distance from each side . and the house was planed with west facing . and the outer wall are 9" and inner are 4.5" notation :- 1' one foot 1" one inch
